

# LEXUS RX

## 20RX / F SPORT

### Side Panel

#### SET UP GUIDE

1. Please refer to figure 1 and fasten the accessories using the metal fittings on the back of the side step . (please arrange the remaining netting so that it does not interfere with the vehicle. Also, please refer to Figure 1 in the attached document: Advice on using the sealer and fasten the netting and side panel in several places with the accessories).
2. Remove the original fastener at the location shown in Figure 1-A (it will be used again).
3. Temporarily assemble the side step to the vehicle and check the installation position by referring to Figure 1. (Please be careful not to interfere with opening and closing the door).
4. After carefully reading the (Advice on using the sealer) instructions ,apply included sealant B to the mounting area on the back of the spoiler and attach it to the vehicle.
5. Fix the part shown in Figure 1-A with the original fastener that you removed in step 2. A: Fix with the original fastener.
