

LAND CRUISER 250
(GDJ250W/TRJ250W)
2024/4-
Daylight Garnish
Set up Guide

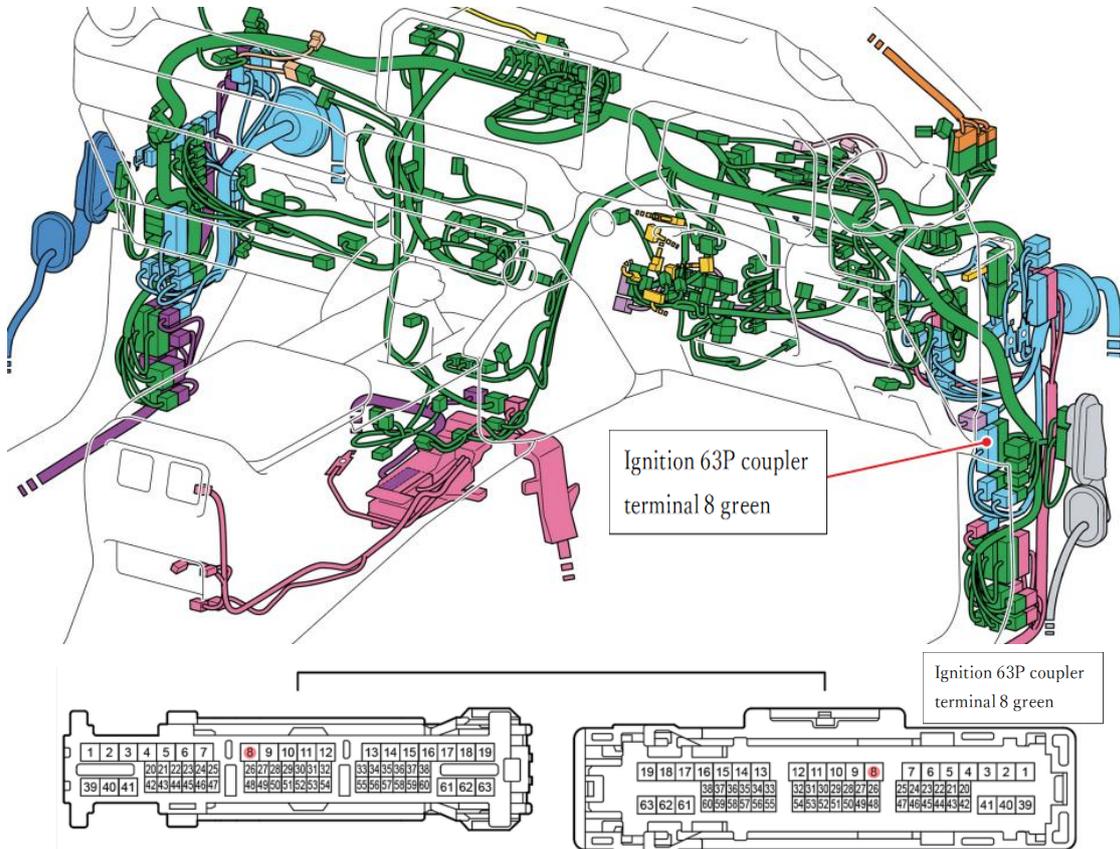

List of included parts:	quantity
A.LED Daylight (dl-03)	1set

1. Mark the dimensions in figure 1 on the bumper and drill an 8mm hole so that it does not interfere with the hoses or wiring on the back of the bumper.
2. Referring to figure 2, thoroughly degrease the adhesive surface of accessory A, pass through the hole (part C') on the product, peel off the release paper from the double-sided tape on the front of the product, secure it in place, and extend the wiring of accessory A.
3. Test fit the product to the vehicle. Check the installation position, and mark the vehicle with masking tape or similar.
4. Thoroughly degrease the vehicle's mounting surface, peel off a small portion of the release paper from the double-sided tape in — figure 2 and bend it outward, then pull the included wiring into the bumper through the hole made in step 1. Temporarily attach it to the vehicle, then peel off the release paper while checking the overall balance and press it in place. It's easier to attach neatly if you first determine the position of the top of the product as shown in figure 3 ➡, then place it downwards.
5. Please attach the product to the headlight washer part.

Set up Guide

6. The black wire coming out of attachment a in figure 2 should be grounded to the body, and the red wire should be pulled into the passenger compartment. After checking the relevant wiring of the coupler in the indicated location in figure 4 with a tester or similar, remove the negative terminal of the vehicle battery, then solder the wire securely and tape the connection with harness tape or similar.
7. Connect the negative terminal of the vehicle battery back.
8. When the ignition is on, check that the LED lights up.
